Attention teachers of physics, chemistry, physical science, & math!

For summer 2017, ASU offers a program of courses
for your professional development.

These are ideal courses to meet re-certification requirements, qualify to teach Dual Enrollment/Adjunct two-year college (TYC), and become highly qualified (ESSA) in physics or chemistry. They can count towards the ASU interdisciplinary *Master of Natural Science* degree (MNS) in physics, & graduate degrees in education. CTE, TYC, and pre-service teachers find these courses useful, too.

* tuition scholarships: <https://graduate.asu.edu/faculty-graduate-credit-options> (MCCCD faculty);
<https://physics.asu.edu/content/partial-tuition-scholarship-mnsmodeling-instruction-courses> by May 22.

* A limited number of spaces for continuing education units (CEUs) (\$400; need not apply to ASU).

Modeling Instruction is designated as an *Exemplary K-12 science program & Promising Technology program* by the U.S. Department of Education. It is rated an *Accomplished STEM program* by Change the Equation. It won the "Excellence in Physics Education" award of the American Physical Society.
