

COMPILATION: Unit 6 - Video Analysis of Projectile Motion

Date: Tue, 4 Dec 2001

From: Geoffrey Clarion <gclarion@ROCKLIN.K12.CA.US>

For those of you who don't have access to any video analysis software/hardware. You can use this link. You may want to check my initial velocities although they should be pretty close. Click on the right arrow button.

<http://rhs.rocklin.k12.ca.us/mrclarion/physics/unit6/105/index.html>

<http://rhs.rocklin.k12.ca.us/mrclarion/physics/unit6/106/index.html>

<http://rhs.rocklin.k12.ca.us/mrclarion/physics/unit6/108/index.html>

I used them today for my classes and they worked great!

By the way, the first page of each should open with a video. You have to have the right plug-in to make it work. If it doesn't, just click on the "Click here to continue" button.

Never let it be said that Rocklin H.S. hasn't made a "Modeling" contribution.
